[IBERIA PARISH, LA – December 30, 2025] **Iberia Parish President M. Larry Richard** advises residents and motorists that Elliott Construction, LLC will begin drainage improvement work on Leon Landry Road between Corporate Drive and Jefferson Island Road starting Monday, January 5, 2026.

Work will include cross drain and side drain replacements and is scheduled to take place Monday through Friday from 7:00 a.m. to 5:00 p.m., with possible work on Saturdays as needed. This phase of construction is expected to last approximately two (2) weeks, weather permitting.

During construction, temporary road closures, lane restrictions, and traffic detours may be necessary to safely complete the work. Traffic control measures, including signage, barricades, and detour routes, will be in place. Motorists should anticipate delays and use caution, as roadway conditions may include loose gravel and dirt in the work area.

Residents will be notified in advance prior to the next phase of the project, which will include roadway reconstruction and asphalt overlay.

Iberia Parish Government appreciates the public's patience and cooperation while these infrastructure improvements are underway. Drivers, pedestrians, and cyclists are urged to remain alert and exercise caution when traveling near active construction zones and work crews.
