A report was given by Scott Landry of Statewide Electrical Services, LLC, on the operation and maintenance of Plant 3 for the month of June 2025. Preventative maintenance was performed in several areas of the plant. He reported that all has been routine for the most part and all major components of the daily operations and maintenance are functioning properly. The return activation sludge pump was swapped and the bad pump was sent in for repair. One hundred-twenty thousand (120,000) gallons of sludge have been wasted from May 22 to June 18, 2025.

A report from Darius Colar with Statewide Electrical Services, LLC was reviewed for the month of June 2025 for the operation and maintenance of the District's field. All work for the month was primarily routine operation and maintenance. New pumps were installed at Vida Shaw, Troy Road, UL, and State Farm Lift Stations. The vacuum truck was used at Turner, US Frame, and Lucky Lane lift stations.

A report from Staples Engineering: The First Solar lift station project has been completed, and all related documents were recorded in June. Plans for the UL Lift Station relocation project are anticipated to be ready by the end of June.

The Director gave his report. Cleco has approved reimbursement for the pump repair for Michelle Lane caused by an electrical power surge. Easement agreements for the Hwy 90/675 project have been submitted to legal counsel for final review and approval. Contract documents for the Water Sector Subdivision project have been forwarded to President Richard for signature. District employees held a meeting to review and discuss updated protocols and procedures for the 2025 hurricane season. Additionally, the July meeting has been rescheduled from the 22nd to the 29th.

It was moved by Chretien, seconded by Guidry, that the Board of Supervisors of Sewerage District No. 1 does hereby approve a resolution authorizing the Chairman to sign an intergovernmental agreement with the City of New Iberia for professional services related to Risk Management Plan implementation for the Tete Bayou Treatment Plant.
