

PROCEEDINGS FROM THE BOARD OF SUPERVISORS OF SEWERAGE DISTRICT No. 1 OF IBERIA PARISH, LOUISIANA, TAKEN AT A REGULAR MEETING HELD ON TUESDAY, MAY 27, 2025.

The Board of Supervisors of Sewerage District No. 1 of Iberia Parish, Louisiana, met in Regular Session at the Iberia Parish Sewerage District No. 1 office, 2617 Northside Road on Tuesday, May 27, 2025, at four o'clock p.m.

Kasey Thibodeaux called the meeting to order with the following members present: Kasey Thibodeaux, Gage Guidry, Eddie Chretien, William Labauve, and Sy Bodin.

Also, present were Chandler Staples, Staples Engineering, Barry Segura, Statewide Electrical Services, LLC, and Scott Landry, Statewide Electrical Services, LLC.

It was moved by Guidry, seconded by Chretien, that the Board of Supervisors of Sewerage District No. 1 does hereby approve the minutes taken at the Regular Meeting held on April 22, 2025.

This motion having been submitted to a vote; the vote thereon was as follows:

YEAS: Kasey Thibodeaux, Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin

NAYS: None

ABSENT: None

And the motion was declared adopted on this the 27th day of May, 2025.

A report was given by Barry Segura of Statewide Electrical Services, LLC, on the operation and maintenance of Plant 3 for the month of May 2025. Preventative maintenance was performed in several areas of the plant. He reported that all has been routine for the most part and all major components of the daily operations and maintenance are functioning properly. The check valve on the EPW tank was pulled and cleaned and a new flow meter for Sugarland was installed. Eighty-four thousand (84,000) gallons of sludge have been wasted from April 21 to May 22, 2025.

A report from Barry Segura with Statewide Electrical Services, LLC was reviewed for the month of May 2025 for the operation and maintenance of the District's field. All work for the month was primarily routine operation and maintenance. The force main at the Belle Terre lift station was air locked so we excavated the area and made the necessary repairs. A manhole in the 2700 block of Loreauville Road was repaired as a result of an automobile accident. Michelle Lane lift station was on generator power for four days following a power surge that burnt underground wires to the station. The pump truck was used at the Iberia Parish Jail lift station, Port of Iberia lift stations, and Lucky Lane lift station.

A report from Staples Engineering: The First Solar project is substantially complete with only a minor punch list of items remaining that are scheduled to be complete in approximately forty-five days. The Hwy 90 Project is expected to commence sometime in June and is expected to take three hundred days to complete. The District is moving forward with the UL Lift Station Relocation. The plans will be resubmitted to the Louisiana Department of Health in June with the anticipation of going out to bid in July. This will be a six- to eight-month project once it commences.

The Director gave his report. Rain stoppers were installed in the Weeks Island Road area to mitigate surface water intrusion. We have two commercial appraisals for property that will be utilized for the Hwy 90 Project Lift Station. The Water Sector Subdivision Project is projected to start mid-June.

Having no other business, it was moved by Guidry, seconded by Bodin, that the Board of Supervisors of Sewerage District No. 1 does hereby adjourn.

This motion having been submitted to a vote; the vote thereon was as follows:

YEAS: Kasey Thibodeaux, Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin

NAYS: None

ABSENT: None

And the motion was declared adopted on this the 27th day of May, 2025.
