[IBERIA PARISH, LA – November 20, 2025] Iberia Parish President M. Larry Richard advises motorists that Glenn Lege Construction, LLC has re-opened South Lewis Street to thru traffic between Oil Center Drive and Briarwood Drive in New Iberia, Iberia Parish.

We would like to thank the public, area residents and businesses for their patience while the contractor removed and replaced 6 major cross drains under Lewis Street.

Currently scheduled for the first week of December, South Lewis Street between the City Limits and Oil Center Drive, will be milled and will receive a new 5" overlay. During this construction the street will be down to one lane around the construction zone and drivers should be on the lookout for flagmen directing traffic. Residents and drivers should anticipate time delays. The roads at times will have loose gravel and oil on the roadway.

Iberia Parish Government appreciates your patience during construction and reminds you to please drive with caution through the construction site and be on the lookout for signs, work crews and their equipment. Area residents should exercise caution when driving, walking, or biking near an active construction zone.
