[IBERIA PARISH, LA – January 29, 2025] **Iberia Parish President M. Larry Richard** is pleased to announce that the Boil Advisory issued for Coteau Waterworks District No. 3 has been officially rescinded.

This advisory was lifted following thorough testing and verification that the water is safe for consumption.

Water samples were collected and analyzed to ensure compliance with all safety standards. Based on these results, customers can now resume normal water use without the need to boil water prior to consumption.

The water system has also returned to normal operating pressures and conditions. We appreciate the community's patience and cooperation during this time and remain committed to providing safe and reliable water service.
