

PROCEEDINGS FROM THE BOARD OF SUPERVISORS OF SEWERAGE DISTRICT NO. 1 OF IBERIA PARISH, LOUISIANA, TAKEN AT A REGULAR MEETING HELD ON TUESDAY, SEPTEMBER 22, 2026

The Board of Supervisors of Sewerage District No. 1 of Iberia Parish, Louisiana, met in Regular Session at the Iberia Parish Sewerage District No. 1 office, 2617 Northside Road, on Tuesday, September 22, 2026, at four o'clock p.m.

Gage Guidry called the meeting to order with the following members present: Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin, and Larry Darby, Jr.

Also, present were Chandler Staples, Staples Engineering; Barry Segura, Scott Landry, and Darius Colar, Statewide Electrical Services, LLC.

It was moved by Labauve, seconded by Chretien, that the Board of Supervisors of Sewerage District No. 1 does hereby approve the minutes taken at the Regular Meeting held on August 25, 2026.

This motion having been submitted to a vote, the vote thereon was as follows:

YEAS: Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin, Larry Darby, Jr.

NAYS: None

ABSENT: None

And the motion was declared adopted on this the 22nd day of September 2026.

A report from Scott Landry, Statewide Electrical Services, LLC, was presented regarding the operation and maintenance of Plant No. 3 for the month of September 2026. Preventive maintenance was performed on the digester blowers, EPW pumps and motors, Clarifier No. 2 gearbox and motor, and bridge aerators. RAS Pump No. 2 was replaced, with the old pump sent for repair. The pond water level remains above the aerator anchors, and pumping will continue after Clarifier No. 1 is emptied and cleaned. Parts for Clarifier No. 1 have been delivered, and removal of the existing parts will begin. The digester pump and motor were repaired. Work at Plant 3 also included completion of the chlorine building slab, replacement of grating around the bar screen and grit chamber, rewiring of the electrical panel near the chlorine area, installation of a new receptacle for the sample pump, and installation of a water meter and backflow preventer at the control building. A total of 251,000 gallons was wasted during the reporting period.

A report from Darius Colar, Statewide Electrical Services, LLC, was presented regarding the operation and maintenance of the District's field for the month of September 2026. Turner Lift Station was pumped out and the pump was replaced, with voltage, amperage, and rotation tested. At Westgate High School Lift Station, a defective high alarm float was replaced. Generators throughout the Parish were checked and test run. Pumps at C'est La Place, Ridgeway Trailer Park, and Timberstone Lift Stations were pulled and inspected weekly. At 677/Arc Lift Station, Pump No. 2 was clogged with trash. The pump was cleaned and the station monitored until it returned to normal operation. At Ridgeway Trailer Park Lift Station, both pumps were found with significant amounts of trash, which was removed, and the station returned to normal operation. At the Chart Lift Stations, one station was pumped out, and wipes were removed from the pump impeller before the pump was reinstalled and the station returned to operation. The pump truck was used at Aggreko on September 3, Lucky Lane on September 3, Loreauville Elementary on September 8, and Back of Neco Town on September 21.

A report from Chandler Staples, Staples Engineering, was presented regarding ongoing engineering projects. For the Highway 90 Sewerage Improvements, the existing Progress Pointe pumps were delivered by the District to the Contractor for testing and installation and are currently at Southern Constructors' shop. Cleco installed conduit to the Progress Pointe site on September 18 and is expected to pull the power wire the following week. Final cleanup and dressing of the north side of Highway 90 was completed, with minor demolition work remaining on the original project once the Progress Pointe station is operational. For the ULL Lift Station Relocation, the District is awaiting installation of security fencing around the new station so the Contractor can adjust gate heights and the District can receive full access. The final punch list walkthrough is scheduled for September 23, with final retainage payment to be made on or after September 24 upon receipt of a 45-day clear lien certificate. ULL and the District intend to enter into an agreement for the District to dedicate its remaining downstream sewer lines and manholes along Fireline Drive, formerly 1st Street from Hangar Drive to Avenue D, to ULL. Significant GIS work was completed during the month. Several new manholes and air release valves were added, and approximately 3,000 linear feet of sewer force mains were incorporated into the GIS system using data collected by the District's new pipeline locator. A parish-wide review of lift stations, ponds, and wastewater treatment plants was also completed, including updates to account numbers and pump data, corrections to lift station locations, addition of six standalone lift stations and four companion lift stations, and updates to wastewater treatment plant and pond information.

Work remains ongoing on the RFP for upgrades to the ARCO WWTP at the Port of Iberia and renewal of the LADEQ discharge permit for the Plant 3 POTW. The permit renewal will be submitted prior to the November 1, 2026 deadline. An engineering contract for the upcoming FP&C Lift Station Improvements Project was submitted to Parish legal for review and approval. Repairs to the Ravenwood Lift Station were completed, and startup was performed on September 22 with all parties present.

The Executive Director gave his report. Roof work at the District’s office building is nearing completion. Startup of the Oil Center and Orange Grove projects is anticipated during the week of October 5, after which substantial completion will be obtained. No update has been received regarding the Delta Regional Authority grant application. The engineering contract with Domingue, Szabo & Associates, Inc. for the new Wastewater Treatment Plant has been executed and recorded. The District is also working with Richard Minvielle of Minvielle and Associates regarding a potential State of Louisiana grant of up to \$3.5 million for sewer extensions, rehabilitation, or expansion.

It was moved by Darby, seconded by Chretien, that the Board of Supervisors of Sewerage District No. 1 does hereby approve a resolution authorizing the Executive Director to sign a three (3) year renewal with Statewide Electrical Services, LLC on the Operation & Maintenance services for field work.

This motion having been submitted to a vote, the vote thereon was as follows:

YEAS: Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin, Larry Darby, Jr.

NAYS: None

ABSENT: None

And the motion was declared adopted on this the 22nd day of September 2026.

It was moved by Chretien, seconded by Bodin, that the Board of Supervisors of Sewerage District No. 1 does hereby approve a resolution adopting the Sewerage District No. 1 of Iberia Parish’s By-Laws as revised September 22, 2026.

This motion having been submitted to a vote, the vote thereon was as follows:

YEAS: Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin, Larry Darby, Jr.

NAYS: None

ABSENT: None

And the motion was declared adopted on this the 22nd day of September 2026.

It was moved by Darby, seconded by Labauve, that the Board of Supervisors of Sewerage District No. 1 does hereby approve a resolution accepting the On Call & Call Out Compensation Policy.

This motion having been submitted to a vote, the vote thereon was as follows:

YEAS: Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin, Larry Darby, Jr.

NAYS: None

ABSENT: None

And the motion was declared adopted on this the 22nd day of September 2026.

Having no other business, it was moved by Chretien, seconded by Bodin, that the Board of Supervisors of Sewerage District No. 1 does hereby adjourn.

This motion having been submitted to a vote, the vote thereon was as follows:

YEAS: Gage Guidry, Eddie Chretien, William Labauve, Sy Bodin, Larry Darby, Jr.

NAYS: None

ABSENT: None

And the motion was declared adopted on this the 22nd day of September 2026.

/s/signed_____

Brad Cradeur, Executive Director
