PRESS RELEASE

September 16, 2024

For immediately release! Iberia Parish Mosquito Control District will conduct aerial spraying operations to address increased mosquito populations. Proposed operations will start tonight (9/16) through Thursday (9/19) weather permitting. Citizens please be prepared for modifications to scheduled operations with additional evenings added if needed. It is imperative that citizens follow these simple guidelines recommended by our District and the CDC. Wear repellent as the label directs, avoid activity at Dawn & Dusk, wear light colored clothing to cover exposed skin and eliminate mosquito breeding sites near the home!

If weather allows, aerial operations will begin near sunset and last approximately one (1.5) and one-half hours. Weather conditions can alter the intended schedule; please expect modifications.

Monday (9/16) Bayou Jack – Avery Island, Bayou Jack, John Lewis
Tuesday (9/17) Lydia – Rynella, Laurant, Port of Iberia
Wednesday (9/18) Coteau Holmes – Gondron, Walet, Daspit
Thursday (9/19) Shirley – Miguez, Derouen, Leleux

During this period, only hypersensitive individuals or persons that wish to avoid all exposure to chemicals in the designated spray area should refrain from outdoor activities; otherwise, all other citizens can proceed with normal outdoor activities!

Citizens will notice low flying aircraft --- If the aircraft is overhead DO NOT attempt to follow the path of the aircraft. The aircraft is traveling quickly and will be out of the area in a brief period!
